

ObjectProject:Cutter

Sea Yu

Identity: emoCube

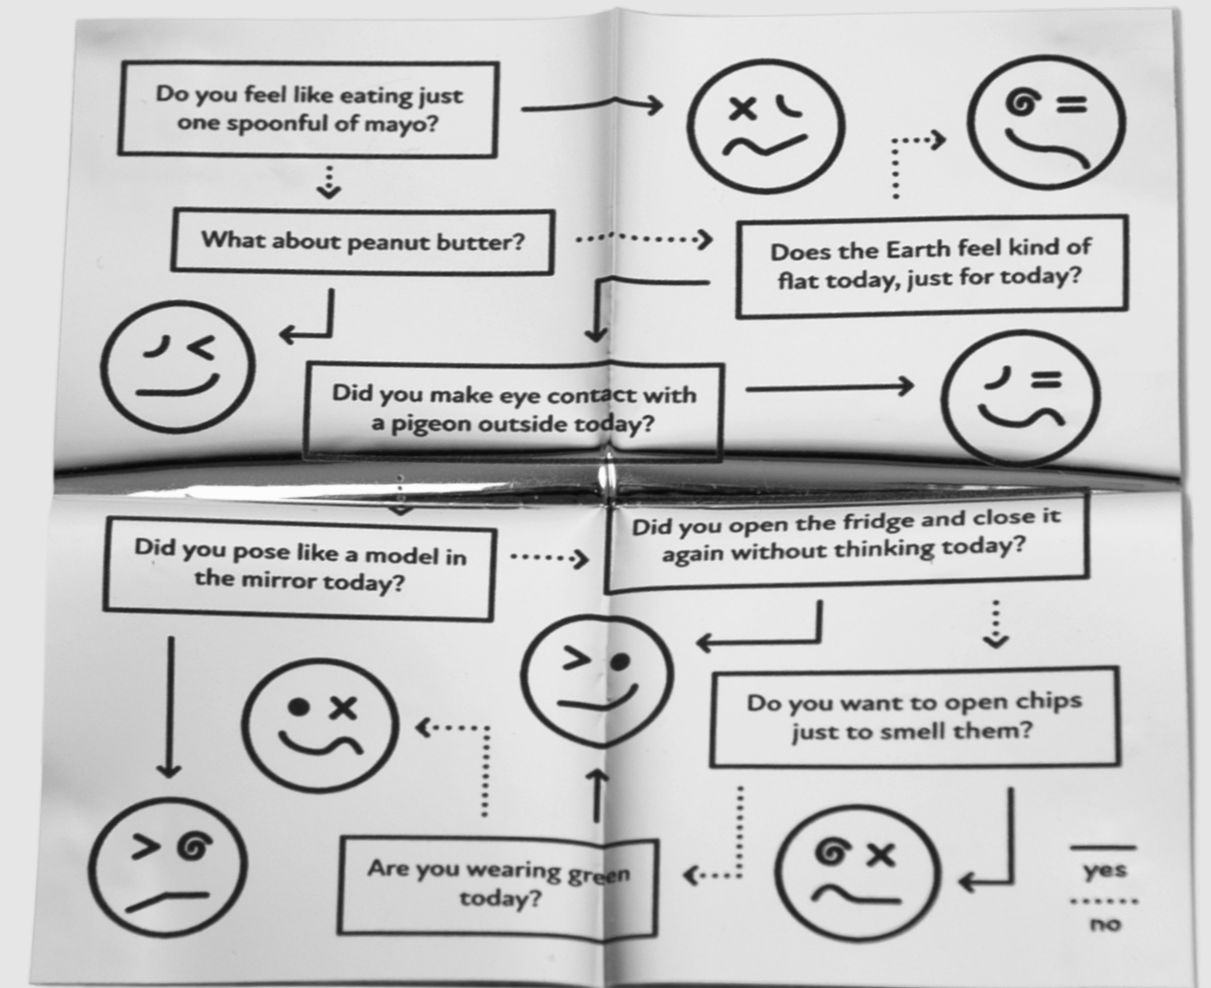

emoCube is a one-of-a-kind puzzle cube like no other! Unlike traditional puzzles where the goal is to match a fixed pattern, emoCube focuses on expressing your emotions. Each side of emoCube features a unique facial expression. As you twist the cube, expressions mix to create new emotions. What if a sad face meets a smiling mouth? The possibilities are endless! Take your time, explore emotions, and make the cube your own. Whether you're feeling joyful, moody, or in between, emoCube captures it all. How are you feeling today? Let your emoCube show it!

- Hold the cube and start twisting it in different directions.
- Observe how the facial expressions combine and change. Find a face that matches your current mood or create an entirely new one!
- Have fun expressing yourself with emoCube!

- * Contains small parts. Not for children under 3 years old.
- * Do not put it in your mouth or suck on it. Use under adult supervision.
- * Keep away from water and fire.

4.5 x 4.5 in

thank you!
